Table 1. Mean and total number of children aged 5 years in England 2007/08 to 2010/11

Coverage year	PCTs with available COVER and IMD data	Mean number of children per PCT in thousands (SD)	Total number of children
2007/08	141	3.9 (2.1)	2365400
2008/09	152	3.9 (2.2)	2364700
2009/10	152	4.0 (2.1)	2363700
2010/11	151	4.1 (2.3)	2363800

SD = standard deviation

Table 2. Immunisation coverage for DTaP and MMR boosters by age 5 across PCTs in England

Coverage year	2007/08	2008/09	2009/10	2010/11
DTaP booster % immunised by age 5				
mean (standard deviation)	79.0 (11.8)	79.8 (13.9)	84.7 (8.8)	85.7 (7.9)
range	31.0-94.0	21.3-95.2	42.7-96.4	54.4-96.7
MMR booster (1st + 2nd dose) % immunised by age 5				
mean (standard deviation)	75.1 (10.4)	78.0 (10.8)	82.7 (7.9)	84.2 (6.3)
range	39.0 -89.0	32.0-91.5	49.3-93.8	61.0-95.1

Table 3. Correlation between immunisation coverage and the average IMD score

	DTaP booster		MMR booster	
	r (Pearson's correlation coefficient)	p-value	r (Pearson's correlation coefficient)	p-value
2007/08	-0.298	<0.001	-0.225	0.008
2008/09	-0.258	0.001	-0.216	0.008
2009/10	-0.202	0.013	-0.108	0.186
2010/11	-0.179	0.028	-0.078	0.343

Table 4. Numbers and percentages of PCTs achieving ≥95% and ≥80% coverage targets set by the

World Health Organisation for the DTaP and [second dose of MMR booster](#)

	2007/08	2008/09	2009/10	2010/11
Total number of PCTs with available cover and IMD data	141	152	152	151
Number and percentage of PCTs achieving ≥95% DTaP booster coverage	0 (0%)	2 (1.3%)	5 (3.3%)	4 (2.7%)
Number and percentage of PCTs achieving ≥80% DTaP booster coverage	82 (58.2%)	104 (68.4%)	120 (79.0%)	125 (82.8%)
Number and percentage of PCTs achieving ≥ 95% coverage of second MMR booster coverage	0 (0%)	0 (0%)	0 (0%)	1 (0.7%)
Number and percentage of PCTs achieving ≥80% coverage of second MMR booster coverage	59	86	117	123

coverage of second MMR % MMR booster coverage	(41.8%)	(56.6%)	(77.0%)	(81.5%)
--	---------	---------	---------	---------
